

Stay on top of your health

Use your preventive care benefits

Regular checkups and exams can help you stay healthy and catch problems early, when they are easier to treat. Our health plans offer all the preventive care services and immunizations below at no cost to you.¹ As long as you use a plan doctor, pharmacy, or lab, you will not have to pay anything. If you use providers that are not in your plan, you may have out-of-pocket costs.

If you are not sure which services make sense for you, talk to your doctor.

Preventive versus diagnostic care

Preventive care helps protect you from becoming sick. If your doctor recommends services even though you have no symptoms, that is preventive care. Diagnostic care is when you have symptoms and your doctor recommends services to find out what is causing your symptoms.

Adult preventive care

Preventive physical exams, screenings, and tests:

- Alcohol misuse: related screening and behavioral counseling
- Aortic aneurysm screening (for men who have smoked)
- Behavioral counseling to promote a healthy diet
- Blood pressure
- Bone density test to screen for osteoporosis
- Cholesterol and lipid (fat) levels
- Colorectal cancer, including fecal occult blood test, barium enema, flexible sigmoidoscopy, screening colonoscopy and related prep kit, and computed tomography (CT) colonography (as appropriate)²
- Depression screening
- Hepatitis C virus (HCV) for people at high risk for infection, and a one-time screening for adults born between 1945 and 1965
- Type 2 diabetes screening³
- Eye chart test for vision⁴
- Hearing screening
- Height, weight, and body mass index (BMI)
- Human immunodeficiency virus (HIV) screening and counseling
- Lung cancer screening for those ages 55 to 80 who have a history of smoking 30 packs per year and still smoke, or quit within the past 15 years²
- Obesity: related screening and counseling³
- Prostate cancer, including digital rectal exam and prostate-specific antigen (PSA) test
- Sexually transmitted infections screening and counseling
- Tobacco use: related screening and behavioral counseling
- Tuberculosis screening
- Violence, interpersonal, and domestic: related screening and counseling

Women's preventive care:

- Well-woman visits
- Breast cancer, including exam, mammogram, and genetic testing for BRCA1 and BRCA2 when certain criteria are met⁵
- Breastfeeding: primary care intervention to promote breastfeeding support, supplies, and counseling^{5,6,7,8}
- Contraceptive (birth control) counseling
- Food and Drug Administration (FDA)-approved contraceptive medical services, including sterilization, provided by a doctor
- Counseling related to chemoprevention for those at high risk for breast cancer
- Counseling related to genetic testing for those with a family history of ovarian or breast cancer
- Human papillomavirus (HPV) screening
- Screening and counseling for interpersonal and domestic violence
- Pregnancy screenings, including gestational diabetes, hepatitis B, asymptomatic bacteriuria, Rh incompatibility, syphilis, HIV, and depression⁷
- Pelvic exam and Pap test, including screening for cervical cancer

Immunizations:

- Coronavirus disease (COVID-19)
- Diphtheria, tetanus, and pertussis (whooping cough)
- Hepatitis A and hepatitis B
- Human papillomavirus (HPV)
- Influenza (flu)
- Measles, mumps, and rubella (MMR)
- Meningococcal (meningitis)
- Pneumococcal (pneumonia)
- Varicella (chickenpox)
- Zoster (shingles)

The preventive care services listed above are recommendations of the Affordable Care Act (ACA) and therefore are subject to change. They may not be right for every person. Ask your doctor what's right for you.

This sheet is not a contract or policy with Anthem Blue Cross and Blue Shield. If there is any difference between this sheet and the group policy, the provisions of the group policy will rule. Please see your combined *Evidence of Coverage and Disclosure Form or Certificate* for exclusions and limitations.

Child preventive care

Preventive physical exams, screenings, and tests:

- Behavioral counseling to promote a healthy diet
- Blood pressure
- Cervical dysplasia screening
- Cholesterol and lipid levels
- Depression screening
- Development and behavior screening
- Type 2 diabetes screening
- Hearing screening
- Height, weight, and BMI
- Hemoglobin or hematocrit (blood count)

- Lead testing
- Newborn screening
- Screening and counseling for obesity
- Skin cancer counseling for those ages 10 to 24 with fair skin
- Oral (dental health) assessment, when done as part of a preventive care visit
- Screening and counseling for sexually transmitted infections
- Tobacco use: related screening and behavioral counseling
- Vision screening, when done as part of a preventive care visit⁴

Immunizations:

- Chickenpox
- Flu
- Haemophilus influenzae type b (Hib)
- Hepatitis A and hepatitis B
- Human papillomavirus (HPV)
- Meningitis

- Measles, mumps, and rubella (MMR)
- Pneumonia
- Polio
- Rotavirus
- Whooping cough

Coverage for pharmacy items

For 100% coverage of your over-the-counter (OTC) drugs and other pharmacy items listed here, you must:

- Meet certain age requirements and other rules.
- Get prescriptions from plan providers and fill them at plan pharmacies.
- Have prescriptions, even for OTC items.

Adult preventive drugs and other pharmacy items (age appropriate)

- Aspirin use (81 mg and 325 mg) for the prevention of cardiovascular disease (CVD), preeclampsia, and colorectal cancer in adults younger than 70 years of age
- Colonoscopy prep kit (generic or OTC only) when prescribed for preventive colon screening
- Generic low-to-moderate dose statins for members ages 40 to 75 who have one or more CVD risk factors (dyslipidemia, diabetes, hypertension, or smoking)
- Tobacco-cessation products, including all FDA-approved brand-name and generic OTC and prescription products, for those ages 18 and older
- Preexposure prophylaxis (PrEP) for the prevention of HIV

Child preventive drugs and other pharmacy items (age appropriate)

- Dental fluoride varnish to prevent the tooth decay of primary teeth for children ages 0 to 5
- Fluoride supplements for children ages 0 to 6

Women's preventive drugs and other pharmacy items (age appropriate)

- Contraceptives, including generic prescription drugs and OTC items like female condoms and spermicides⁷
- Low-dose aspirin (81 mg) for pregnant women who are at increased risk of preeclampsia
- Folic acid for women ages 55 or younger who are planning and able to become pregnant
- Breast cancer risk-reducing medications, such as tamoxifen, raloxifene, and aromatase inhibitors, that follow the U.S. Preventive Services Task Force criteria²

We hope this information helps you understand your preventive care benefits. For a complete list of covered preventive drugs under the Affordable Care Act, view the *Preventive ACA Drug List* flyer, available at anthem.com/pharmacyinformation.

1 The range of preventive care services covered at no cost share when provided by plan doctors is designed to meet state and federal requirements. The Department of Health and Human Services decided which services to include for full coverage based on U.S. Preventive Services Task Force A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC), and certain guidelines for infants, children, adolescents and women supported by Health Resources and Services Administration (HRSA) guidelines. You may have additional coverage under your insurance policy. To learn more about what your plan covers, see your *Certificate of Coverage* or call the Member Services number on your ID card.

2 You may be required to receive preapproval for these services.

3 The Centers for Disease Control and Prevention (CDC)-recognized diabetes prevention programs are available for overweight or obese adults with abnormal blood glucose or who have abnormal CVD risk factors.

4 Some plans cover additional vision services. Please see your contract or *Certificate of Coverage* for details.

5 Check your medical policy for details.

6 Breast pumps and supplies must be purchased from plan providers for 100% coverage. We recommend using plan durable medical equipment (DME) suppliers.

7 This benefit also applies to those younger than age 19. A cost share may apply for other prescription contraceptives, based on your drug benefits. Your cost share may be waived if your doctor decides that using the multisource brand or brand name is medically necessary.

8 Counseling services for breastfeeding (lactation) can be provided or supported by a plan doctor or hospital provider, such as a pediatrician, OB-GYN, or family medicine doctor, and hospitals with no member cost share (deductible, copay, or coinsurance). Contact the provider to see if such services are available.
